# CMMC 2.0
## What You Need to Know
Keeping Your Business Secure & Ready for
DoD Contracts

## April 29, 10:00 – 11:00 am PST
**To Register Click here.**

The Department of Defense (DoD) is rolling out new cybersecurity requirements, and businesses working with the government will need to meet Cybersecurity Maturity Model Certification (CMMC) 2.0 standards to stay competitive. If your business handles Controlled Unclassified Information (CUI), understanding these changes is key.

### WHAT YOU'LL LEARN:

- CMMC 2.0 Overview – What it is, who it applies to, and why it matters.
- The Certification Process – Steps to prepare and what's required for different levels.
- Understanding CUI – How to determine if your business needs to comply.
- Getting Ready for Compliance – Simple actions to start implementing now.
- Support & Resources – How the APEX Accelerator program can guide you through the process at no cost.
